PTA Sponsors District Student Achievement Presentation

As a direct result of questions and concerns raised by parents and taxpayers, the PTA is sponsoring an important and informative presentation by the school district on Student Achievement on Thursday, 12/2 at 7:30pm in the High School.

This presentation will have critical information and is appropriate for everyone who has a child in elementary, middle school and high school. Superintendent for Curriculum and Instruction, Dr. Theresa Prendergast, will lead the presentation and will also feature the curriculum coordinators from all departments. In addition, the principals from Stewart, Stratford, the Middle School and the High School will all be in attendance for comments and questions.

This is the opportunity for parents to learn how Garden City students are doing in comparison to local and national students, and how Garden City compares to other school districts. It will also help parents plan for the future of their children by presenting what is available to our students.

The PTA Curriculum Committee is coordinating the Student Achievement Presentation, and encourages all parents and taxpayers to attend this critical meeting.
